

Ink Duct End Blocks

for Heidelberg Presses and Kompac Systems

Cleaning Felts

Master ink duct end blocks are made of the highest quality engineering grade plastic polymer (POM) which can endure high cyclic stress loading. This ensures high strength and wear resistance translating into a long life in production.

Master ink duct end blocks are precision engineered on modern CNC machines ensuring an exceptional tight fit to the ink duct roller.

Master ink duct end blocks are, wherever required, supplied with tab, screw and scraper cleaner mounted and ready to use.
